Klang+Ton 06/2014

"Used in the speaker building concept MonaLisa: usually rather unobtrusive with a harmonised tuning, this speaker can still show an impressive performance, even at very high volume levels and when listening over longer periods of time. It provides a powerful bass and midrange reproduction and features an elegance which can only be realised with high-quality materials."

HOBBY HiFi 03/2014

"An exceptionally high-quality radiation without any cone resonance."
